

Cybersecurity Career Kickstart+

Part-time

Our flagship blue-team career-conversion programme, studied part-time and fully online around a full-time job. Beginner-friendly, hands-on and built around real outcomes, for adults with no IT background.

DURATION 333 hours · part-time over about 8 months	FORMAT Online	LEVEL Beginner
PARTNER Ngee Ann Polytechnic	FEE From S\$2,125.50 after up to 90% SkillsFuture funding (incl. GST)	CERTIFICATES 4 (incl. GCIH)

The programme

A beginner-friendly, hands-on, blue-team career-conversion programme delivered online. You move from first principles to job-ready across 5 modules, finishing with a portfolio, recognised certificates and a clear route into a first cybersecurity role.

80% of graduates who completed the full programme and career services secured cybersecurity employment (as of early 2026).

Course modules

01 Cybersecurity Fundamentals

Basic networking and the OSI model · Network protocols and remote access · Anonymity on the network and basic cyber attacks...

02 Network Research

TCP/IP, the OSI model and network routing basics · Network and remote connection protocols · Traffic capture and analysis with Wireshark...

03 Security Operations Centre (SOC) Analyst

Windows Server and Active Directory (ADDS) installation and configuration · Managing domain protocols, policies and IP address subnetting · Analysing Windows event logs on the domain controller...

04 Penetration Testing

OSINT: monitoring blogs, harvesting employee and organisation emails, Shodan · Nmap scanning, service versions, NSE scripting · Enumeration of DNS, FTP, SSH, SMB and MySQL; network traffic analysis...

05 Windows Forensics and Incident Response

Storage and file system forensics · Files and disk analysis, file system analysis, automatic carving, metadata · Steganography in forensic context...

Same curriculum, structured differently for accreditation: the Cybersecurity Career Kickstart+ is organised into seven Ngee Ann Polytechnic modules, while our full-time SCTP Defence route is organised into five. There is no material difference in the content, the hands-on labs or the outcomes — only the administrative structure. The funding available differs between the two routes, though: some mid-career SkillsFuture schemes apply to the SCTP route only. We'll walk you through both at the free info session.

Fees and funding

	SG CITIZEN 40 AND ABOVE	SG CITIZEN 21-39 OR PR	SELF-FUNDED / STANDARD
Course fee, before funding	S\$19,500	S\$19,500	S\$19,500
SkillsFuture funding	Up to 90%	Up to 70%	—
Nett fee, before GST	S\$1,950	S\$5,850	S\$19,500
9% GST	S\$175.50	S\$526.50	S\$1,755
Total payable	S\$2,125.50	S\$6,376.50	S\$21,255

Singapore citizens aged 40 and above receive up to 90% SkillsFuture funding; citizens aged 21 to 39 and permanent residents receive up to 70%. 9% GST applies on the nett fee. SkillsFuture Credit (up to S\$500), UTAP (S\$200 to S\$500) and PSEA may reduce the nett fee further. Figures are indicative — confirm your eligibility and the latest fees at the free info session.

Career support

- **Live career workshops** — Practical sessions on navigating the cybersecurity job market.
- **CV preparation** — One-to-one help shaping a CV around your new skills and portfolio.
- **Interview preparation** — Mock interviews and coaching for both technical and behavioural rounds.
- **Ad-hoc employer referrals** — When organisations approach CFCI for hiring solutions, we may share your CV with them. This is done on an ad-hoc basis and is never guaranteed.

This is real, hands-on support to make you genuinely hireable. It is not a job guarantee, and we will never claim one.

What you will earn

- Cybersecurity Career Kickstart+ certificate (Ngee Ann Polytechnic)
- Seven Ngee Ann Polytechnic modular skills certificates
- Certificate of completion in Windows Forensics and Incident Response (CFCI)
- GIAC Certified Incident Handler (GCIH) examination voucher (terms apply)
